Baby Animals

Express Publishing

LET'S START!

Every day, all over the world, baby animals are born. Some are small, some are big. They are all amazing! Welcome to the world, babies!

Look at these baby animals. What animals are they? Do they look like their mothers or like their fathers? Do they drink milk to grow?

Now, learn all about some more babies!

MORE**

The Lion and the Ostrich

One day, a lion is sitting in a tree. She is on her own. She doesn't have any babies. She is

lonely. She sees an ostrich mother with her four chicks. "I want those chicks!" she says. She jumps down and scares the ostrich mother away. Then, she takes the chicks to her den.

The ostrich is very sad. She asks a jackal to help her. He goes to the lion's den and says, "Those are not your chicks. You have got four legs, but the chicks have got two!" "I don't care. Go away!" says the lion.

2 Read and answer.

Which animal(s) ...

1 stay(s) with their mother for one and a half years?

.....

2 stay(s) with their mother for up to ten years?

.....

3 stay(s) with their mother for two months?

.....

4 never leave(s) their mother?

.....

- Read Peter Panda's postcard. Now imagine you are one of the animals. Send a postcard to your mummy.

Dear Mummy,

How are you? I'm doing really well on my own, but I miss you. I eat bamboo leaves and sleep a lot! Thank you for everything! Your loving son,

Peter Panda
