Stone Soup

This is a story from long ago. A poor man is very hungry. He goes from village to village, looking for food. One day he arrives at a small village in the mountains.

He knocks at the first house. An old woman opens the door. "Can you give me some food? I am very hungry," the poor man says. "I'm sorry, but I have nothing to give you," the woman answers.

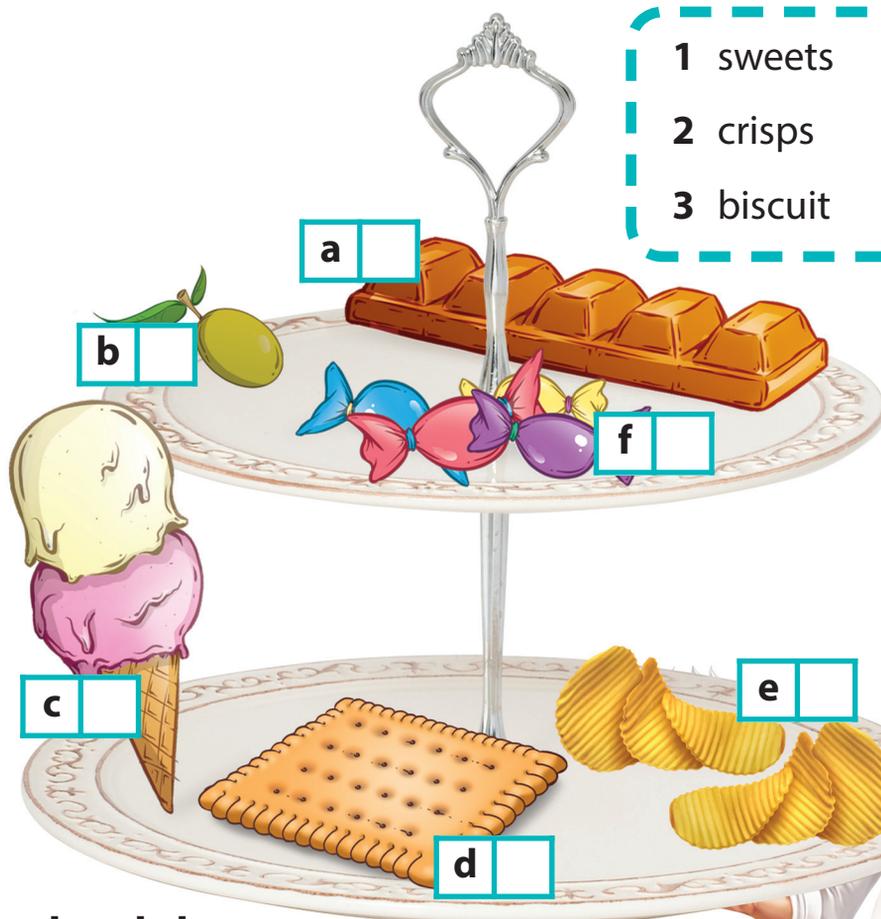

So the man goes from house to house. Every time they send him away. No one wants to help him. The poor man is very sad!

But then one kind woman says, "I can give you some water." "Thank you," the man says happily. "Now we can make some stone soup."

He asks the kind woman for a cooking pot and makes a small fire. As the water is boiling, the kind woman asks him, "What are you doing?"

"I'm making stone soup," the man answers.
